

We do not have a Guest Player Roster Form. Here are the guest player procedures:

- 1) Follow your state's normal guest player procedures. Whatever your state association rule for permission to guest play, follow local rules. If your state association must approve the players, then carry the proper paperwork with you to each game. If paperwork must be forwarded by the state association, then have it sent to Jim Tilley at 4152 Dietz Farm Cir NW, Albuquerque, New Mexico 87107. If your state association has an open guest player policy, then be sure to comply with all normal requirements.
- 2) Remember that any guest player must be a member of your club and must be age-appropriate. No player may play for more than one team in a day. No player may play for more than one team in the same age/gender group during the Spring 08 season.
- 3) For the referees, you must present an 18-player (or less) game roster before the game. The computer game card will suffice. Cross off regularly rostered players that will not play and add (legibly) your guest players to the bottom of your regular roster. (With the new ADG roster system, it is possible to list guest players on the roster through the computer. We will send out details of that when we have them.) These are the game-eligible players. If you play more than one game in a weekend, the 18 players for game two don't have to be the same 18 players as for game one. If you are U17+, you may have up to three guest players for the season. If you are U14-U16, you may have up to seven for the season.
- 4) To stay straight with FWRL rules, email me at fwrljt@aol.com your guest player list seven days before a guest player plays. You can only use 25 players for the whole season, and only three guest players for the U17-18 teams and seven for the U14-U16. If, for example, you are going to use one guest player for the games next weekend, but three new ones later in the month, then e-mail me the one name this week, and a list of all four (the first one plus the three new ones) a week before the next set of games. I need a running list of all the guest players you have used for the season, and we'll check them against game cards.

We want to make this as simple as possible and handwriting the guest players to the game roster is as simple as it gets. Similarly, we will try to make e-mail the basis of FWRL tracking.
