

2009 REGION IV 94 BOYS ODP CAMP

Day 3

Everyone in camp awoke to a cool Oregon day for the second full day of training and games while the Identification game was introduced for the first time. The morning sessions were a bit sluggish at first due to the soreness from the games the previous night. However, the players remained focused and the tension from early round competition seemed to have subsided a bit.

After lunch, the Identification game was introduced to campers. There were 67 players were asked to participate in the ID game. The players were divided up into either a "Light" or "Dark" team. Each lineup was asked to play a 25 minute mini-game. It was a great opportunity for players to showcase their abilities to the other players as well as the Region IV staff. The games were very entertaining as they were fast paced with a ton of scoring. It is safe to say that the "Dark" team was dominate on the day, winning two and drawing the last game.

Once again, games were played in a staggered format at 4:30 and 7:00 P.M. The games were competitive and very physical. (See scores below.) As in previous nights, the night ended peacefully as the players are tired from the day and excited about tomorrow.
