

Golf Cart Usage and Availability

Golf cart usage at the Bettye Wilson Soccer Complex will be limited to Region IV staff, medical staff and tournament operations. Bettye Wilson features a compact layout, with all ten fields being easily accessible by foot. Please refer to the field map of the Bettye Wilson Soccer Complex also on this website.

The Kellogg Zaher Sports Complex features a more expansive field layout, with the distances between fields being far greater than at Bettye Wilson. As a consequence, we will be providing for the rental of carts at the Kellogg Zaher location. Given the supply of carts available for this event, we can make **up to two carts per State Association** available for rental for Monday, June 18 through Friday, June 22. No games are scheduled at Kellogg Zaher after Friday, June 22.

The carts are being offered at a rental price of \$500 per cart for the 5 day period. This will include the cart, fuel and overnight storage. Carts may only be rented by State Associations, and all drivers must be at least 16 years of age. The carts that will be made available for rental may be of the two-seat or four-seat variety. However, we can not guarantee that the renter will receive a particular configuration due to the limited availability of rental carts in the Las Vegas area.

If your State Association is interested in renting a cart at Kellogg Zaher, please print and fill out the form that follows and mail it to US Youth Soccer of Nevada with your accompanying payment. We must have reservation forms for carts on or before June 1 to secure carts.
